

FOR IMMEDIATE RELEASE

Technologent Achieves Select Certification from Cisco United States

LAKE FOREST, CA, March 17, 2010 – Technologent, a nationwide Solutions Integrator, announced today it has achieved Select Certification from Cisco®. The Select Certification recognizes Cisco resale channel partners whose primary focus is on the small and medium-sized business (SMB) market with fewer than 250 employees.

“Our customers value our commitment to providing best-of-breed solutions, and we view the addition of the Cisco product line as a wise investment of our time and resources. We are very pleased to have achieved this certification as it recognizes our commitment to delivering professional Cisco solutions to the SMB market,” said Marco Mohajer, Sr. Vice President Sales and Marketing. “We are already working towards the next level of certification in order to offer more advanced solutions to our customers in the future.”

“The Cisco Select Certification was created in response to customer demand for channel partners to be capable of designing and implementing SMB-specific Cisco solutions,” said Surinder Brar, senior director of worldwide channels at Cisco. “With the Select Certification, Technologent has made an investment in obtaining the training, skills and knowledge necessary to play a pivotal role in meeting this increasing demand.”

To earn Select Certification, Technologent fulfilled the training and exam requirements for the SMB Specialization. Technologent also met the personnel, training, and post-sales support requirements set forth by Cisco.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Select, Premier, Silver and Gold—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking solutions. Cisco resale partner specializations—Entry, Express, Advanced and Master—reflect an increasing depth of sales, technical and service expertise in particular technologies.

Cisco, Cisco Systems and the Cisco logo are registered trademarks of Cisco Systems Inc. in the United States and certain other countries.
